

REL Lighting Price List 2020

Profusion X

Model	Description	Retail Price
HEX-700W	Profusion X Gen2 Light Module (requires a power supply)	\$ 5000
HEX-700W-PS1	Profusion X Gen2 Power Supply	\$ 2,000
HEX-700W-PS3	Profusion X Gen2 Power Supply with Burst Mode	\$ 4,000

FLC LED Light

Model	Description	Retail Price
FLC-MOD	Flat Panel Focused LED Light Module (requires a power supply)	\$ 5000
FLC-INT	FLC-INT Flat Panel Focused LED Light Integration Fixtures	\$ 1,200
FLC-PS1-48V 2400W	FLC-PS1-48V 2400W Flat Panel Single Module 48 volt power supply	\$ 2,000
FLC-PS3-48V 2400W	FLC-PS3-48V 2400W Flat Panel Multi-Module (4 Max) 48 volt power supply	\$ 6,000
FLC-1600	Four Flat Focused LED Light Kit With power supply, Tripod, and Integration Fixtures	\$ 30,000

Accessories

Model	Description	Retail Price
HEX-700W CABLE-20	20' Extension Cable	\$ 360
HEX-700W CABLE-50	50' Extension Cable	\$ 480
HEX-700AF	Array Connector for Profusion X Modules	\$ 185
UTM-1800	Universal Tripod Mount System	\$ 3,500

Profusion X

LED Lighting

Standard Kit Includes:

- Profusion X Module
- Power Supply w/ 6ft cord
- Remote w/ 12ft cord
- Magnetic laser
- Tripod

Magnetically attached laser pointer for precise beam adjustment

Profusion X Modules

REL's SURE-Bright™ Profusion X Modules are an expandable lighting system designed for tailorable lighting in dynamic events.

The elegantly designed light modules are engineered with 120-high power LED emitters emanating light through high performance lenses. Modules can be mounted on freestanding tripods or paired with any camera mounting system. The high intensity continuous light source combined with the inherent expandability and focusing ensures quick setups and consistent image acquisition. Profusion X modules are compatible with multi-camera setups from various manufacturers.

PS1 Power Supply

- 540 watts continuous
- 72,000 Lumens continuous
- 24 Degree Beam
- 65" FWHM Spot at 4m with 13 klux peak intensity continuous
- 6ft power cord
- 10%-100% dimming (continuous mode)
- 0-10 Volt BNC Trigger (dimmable)

PS3 Power Supply

- Same Continuous Performance as PS1
- Adds 10 second burst mode
- 2,400 watts burst
- 204,000 Lumens burst
- 65" FWHM Spot at 4m with 43 klux peak intensity burst

LED Lighting

FLC-1600

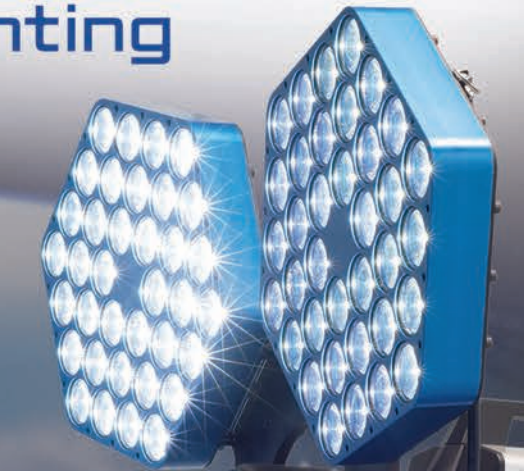

LED Lighting

Magnetically attached laser pointer for precise beam adjustment

Standard Kit Includes:

- 4 each-FLC-MOD
- Power Supply w/ 6ft cord
- Mounting hardware
- Remote w/ 12ft cord
- Magnetic laser
- Tripod

FLC-1600 INTEGRATED WITH A HIGH SPEED CAMERA

FLC LED Light Modules

REL's FLC LED Lighting System is a 5° spot light for tailorable lighting to capture dynamic events at long range. FLC LED modules can be combined to produce tailorable lighting at adjustable focal lengths ranging from 2 FEET - 100 FEET.

PS1 Power Supply

- PS1-48V
- 600W Continuous Power at Max output
- 2 Minute Continuous Run Time at Maximum Output
- 5 Degree Beam
- 12" FWHM Spot at 4m with 150 klux peak intensity
- 60,000 Lumens at Maximum Output
- 0-10 Volt BNC Trigger
- 10%-100% Variable Light Output
- On/Off Fan override switch

PS3 Power Supply

- PS3-48V
- 2400W Continuous Power at Max output
- 2 Minute Continuous Run Time at Maximum Output
- 5 Degree Beam
- 12" FWHM Spot at 4m with 600 klux peak intensity
- 240,000 Lumens at Maximum Output
- 0-10 Volt BNC Trigger
- 10%-100% Variable Light Output
- On/Off Fan override switch
